DESCRIPTION
Cure Hard J14 is a ready-to-use, water-based general purpose curing aid designed to help ensure proper concrete strength development. Cure Hard J14 will not interfere with future flooring adhesives, coatings, treatments or flooring materials.

USE
Cure Hard J14 is ideal as a curing aid or can be used for hardening and dustproofing of interior and exterior, horizontal and vertical concrete surfaces.

FEATURES
- Helps prevent plastic shrinkage cracks
- Non-flammable/odorless/VOC Compliant
- Penetrates to aid curing
- May contribute to LEED credits
- Will not inhibit adhesion of secondary coatings, topping, or adhesives
- Certified to NSF/ANSI 61 by WQA

Drying time:
Approximately 1 hour at 70°F (21°C).
Allow treated area to dry before opening to traffic.
Dry time is temperature, humidity and wind dependent.

VOC
“0” g/L. Compliant with all Canadian and U.S. VOC regulations for including Federal EPA, OTC, LADCO, SCAQMD & CARB.

Estimating Guide
Surfaces to receive flooring, densifiers or adhesive should be treated at the Trowel Finish coverage rate.

Broom finish 200 – 400 Ft²/Gallon 4.9 – 9.8 M²/Liter
Trowel finish 500 – 600 Ft²/Gallon 12 – 14.8 M²/Liter.

Texture and absorption characteristics of the surface will dictate final coverage rates.

STORAGE
Keep from freezing. Shelf life is 24 months from date of manufacture in original unopened containers.

Surface Preparation:
Freshly finished concrete surfaces require no surface preparation, applied immediately after the bleed water has dissipated or after final finishing. On older concrete, substrate must be absorptive. Remove all oil and grease, paint and coatings to assure penetration and hardening.

Mixing:
Mix thoroughly prior to each use.

Placement:
Apply only when temperatures are above 40°F (4°C).
When used as a cure aid, apply with a low pressure sprayer once the surface is dry to the touch or hard enough to walk on. Remove excess material and puddles from surface with a broom or squeegee. On existing concrete, apply with a low pressure sprayer, soft bristle broom, brush or squeegee. For optimum hardening, apply two coats. Remove excess material and puddles from surface after application is complete.

CLEAN UP
Tools and equipment use clean, fresh water. After the product dries, hot water scrubbing or sanding may be required for removal.

LIMITATIONS
This product is certified to conform to NSF/ANSI Standard 61 at a maximum surface area to volume ratio of 98.4 sq. cm/L.

PRECAUTIONS
Will stain glass, metal and other trim. Protect from contact. Clean accidental splash or spill immediately with water.
During rapid drying conditions such as low humidity, low dew point, high winds, direct sunlight and hot weather use AquaFilm J74RTU to minimize moisture loss during finishing.
In such conditions consider using a curing compound with a lower moisture loss.
PRECAUTIONS

READ SDS PRIOR TO USING PRODUCT

- Use with adequate ventilation
- Wear protective clothing, gloves and eye protection (goggles, safety glasses and/or face shield)
- Keep out of the reach of children
- Do not take internally
- In case of ingestion, seek medical help immediately
- May cause skin irritation upon contact, especially prolonged or repeated. If skin contact occurs, wash immediately with soap and water and seek medical help as needed.
- If eye contact occurs, flush immediately with clean water and seek medical help as needed
- Dispose of waste material in accordance with federal, state and local requirements

MANUFACTURER
Dayton Superior Corporation

WARRANTY
Dayton Superior Corporation ("Dayton") warrants for 12 months from the date of manufacture or for the duration of the published product shelf life, whichever is less, that at the time of shipment by Dayton, the product is free of manufacturing defects and conforms to Dayton’s product properties in force on the date of acceptance by Dayton of the order. Dayton shall only be liable under this warranty if the product has been applied, used, and stored in accordance with Dayton’s instructions, especially surface preparation and installation, in force on the date of acceptance by Dayton of the order. The purchaser must examine the product when received and promptly notify Dayton in writing of any non-conformity before the product is used and no later than 30 days after such non-conformity is first discovered. If Dayton, in its sole discretion, determines that the product breached the above warranty, it will, in its sole discretion, replace the non-conforming product, refund the purchase price or issue a credit in the amount of the purchase price. This is the sole and exclusive remedy for breach of this warranty. Only a Dayton officer is authorized to modify this warranty. The information in this data sheet supersedes all other sales information received by the customer during the sales process. THE FOREGOING WARRANTY SHALL BE EXCLUSIVE AND IN LIEU OF ANY OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, AND ALL OTHER WARRANTIES OTHERWISE ARISING BY OPERATION OF LAW, COURSE OF DEALING, CUSTOM, TRADE OR OTHERWISE.
