

CS - CONTINUOUS SUPPORT

DESCRIPTION

The CS Continuous Support is a continuous metal bar support used to maintain the elevation of rebar in reinforced concrete. Continuous supports are available for wire mesh support in 2" through 16" heights. Available in plain finish.

FEATURES & BENEFITS

- Melted, rolled and manufactured in the USA
- Cover height 2" to 16" in 1/2" increments
- Usable product span is 7'
- Product heights from 2" to 7" have 2 runner wires
- Product heights of 7-1/2" to 16" have 3 runner wires

APPLICATION

The CS Continuous Support is used to support one layer of steel above another and space them to required distance. It may be used to support steel on soft material form surface, such as carton forms or fill material.

NOTE: Measure length is 7' and billing length is 8'
