

## Cure Hard J14

### DESCRIPTION

CureHard J14 is a ready-to-use, water-based general purpose curing aid designed to help ensure proper concrete strength development. It will not interfere with future flooring adhesives, coatings, treatments or flooring materials. It hardens and dustproofs interior, exterior, horizontal and vertical concrete surfaces.

### FEATURES & BENEFITS

- Helps prevent plastic shrinkage cracks
- Non-flammable/odorless/VOC compliant
- Penetrates to aid curing
- May contribute to LEED credits
- Will not inhibit adhesion of secondary coatings, topping, or adhesives
- Low cost, economical curing aid

### PRODUCT DATA

#### Drying Time:

- Approximately 1 hour at 70°F (21°C).
- Allow treated area to dry before opening to traffic.
- Dry time is temperature, humidity and wind dependent.

#### VOC:

“0” g/L. Compliant with all Canadian and U.S. VOC regulations for including Federal EPA, OTC, LADCO, SCAQMD & CARB.

#### Estimating Guide:

Surfaces to receive flooring, densifiers or adhesive should be treated at the Trowel Finish coverage rate. Texture and absorption characteristics of the surface will dictate final coverage rates.

- Broom finish: 200 – 400 ft<sup>2</sup>/gal. (4.9 – 9.8 m<sup>2</sup>/L)
- Trowel finish: 500 – 600 ft<sup>2</sup>/gal. (12 – 14.8 m<sup>2</sup>/L)
