

# D630 Compression Only Coupler

## DESCRIPTION

The Dayton Superior D630 Compression Coupler is an easy-to-install rebar coupler, perfect for applications requiring a compression-only connection.

## FEATURES & BENEFITS

- Available in rebar sizes #4 [13mm, 10M] through #18 [57mm, 55M]
- Develop the full ACI Type 2 requirement in compression
- Can be installed on first bar prior to second bar
- Uses readily available ratchets for assembly
- Wide inspection holes at bar end location
- Removeable and reusable
- Small profile for tight applications
- Can be used at hoop and stirrup locations

## PRODUCT DATA

- ACI 318, Type 2 (Compression Only)
- ICC AC133, Type 2 (Compression Only)
- AASHTO & State Departments of Transportation (Compression Only)
- International Building Codes (IBC), Type 2 (Compression Only)
