

Forming Brackets

DESCRIPTION

Dayton Superior forming brackets consists of lightweight, reusable plastic designed for quick and easy installation and secure attachment to the casting slab.

FEATURES & BENEFITS

- The adhesive backed shoe plate of the T66 Tilt Bracket™ Forming System ensures that the bracket is held firmly in place.
- The Dayton Superior T70 EZ Nail Form Bracket is made of cost effective composite plastic designed for nail-down installation.
- Ability to reuse brackets saves money.

PRODUCT DATA

- The T66 Tilt Brackets™ come in two sizes 5" for form height 5" to 7" and 7" for form height 7" to 11".
- Maximum recommended spacing is 18".
- The Dayton Superior T70 EZ Nail Form Bracket features a unique dual-bracket design providing nail-down installation for 5" through 10" panel form heights.
