

- ◇ DOT Approval
- ◇ NSF 61 Approval
- ◇ CDPH v1.2 Tested
- ◇ LEED Certified
- ◇ VOC Compliant

- ◇ Extend form life
- ◇ Reduce cleaning labor
- ◇ Prevent rusting
- ◇ Minimize surface dusting and defects

There are 3 types of form releases and Dayton Superior offers all of them!

Buffered:** Partially reactive but more forgiving if over-applied

Reactive*:** Fatty acids in the product react with the free lime in concrete to create a soap (a process called saponification) that prevents sticking to forms

***Clean Strip™ J1EF/Farm Fresh XL™**

Water-based, VOC-compliant, biodegradable release agent. NSF/ANSI/
CAN 61 and MAS Green Certified.

***Clean Strip™ J1A

Petroleum-based, VOC-compliant, chemically reactive release agent.
MAS Green Certified

***Clean Strip™ J1A Winter Grade

Petroleum-based, chemically reactive release agent with lower VOCs for use in cold temperatures.

***Clean Strip™ Ultra J3

Premium, VOC-compliant, chemically reactive release agent ideal for architectural and precast concrete.

Petroleum-based, diesel-free, VOC-compliant chemically neutral (buffered) release agent. More forgiving if over applied.
