

ProAnchor WeatherMax

ProAnchor WeatherMax is a two component high strength, styrene-free, vinylester anchoring adhesive used for anchoring threaded rod and reinforcing bar in cracked and uncracked concrete in accordance with ACI 355.4 and ICC-ES ESR-4554.

- Ideal for cold weather installations
- Non-sag gel consistency for horizontal and vertical installations
- Meets requirements of ACI 355.4 and ICC-ES ESR-4554
- Full cure in 45 minutes at 70 °F (21 °C)
- Meets ASTM C881 / AASHTO M235 Type I, II, IV, & V Grade 3 Class A, B & C
- High-strength structural adhesive
- Resists sustained loads up to 161 °F (72°C) temperatures
- Styrene free

For use in cracked and uncracked normal weight and lightweight concrete anchoring dowels, bolts, threaded rod, pins and reinforcement steel in concrete. Install anchors in a vertical down, horizontal, upwardly inclined and overhead installations.

Resists static, wind and earthquake loading in tension and shear (IBC Seismic Design Categories A through F). ProAnchor WeatherMax can also be used in cooler and freezer applications or anywhere low temperature installations are required.
