

## Product Selection Guide

### Grouts

DESCRIPTION	1107 Advantage Grout	Sure Grip HP Grout	Sure Grip Precision Grout	Dri Pak Precast Grout	Turbo Grout HP 12	Turbo Grout LT 12	Underwater Grout	Epoxy Grout J55	Poxy Chock	Sure Grip Ferro Grout
Meets ASTM C-1107 (CRD C-621)						1				
Non-Metallic										
Metallic										
Low temperature / rapid strength gain										
Non-Gaseous expansion										
Grout designed for underwater / tidal zones										
Epoxy Grout: 3 Component										
Epoxy Grout: machine chocking										
Can be applied in Fluid consistency										
Can be applied in Flowable consistency										
Can be applied in Plastic consistency										
Compressive strength 7,000 psi or greater										
Compressive strength 8,000 psi or greater										
Compressive strength 12,000 psi or greater										
Compressive strength 13,000 psi or greater										

*Blue cells indicate that the description or specification applies to the product.*

**Note:**

1. Meets the requirements of ASTM C1107 placed at 35 to 40°F (1.7–4.4°C) at flowable consistency.
